PUBLIC ADVERTISEMENTS

OFFICE OF THE PRINCIPAL INFORMATION OFFICER TO THE GOVERNMENT OF MYSORE, OLD PUBLIC OFFICES, BANGALORE.

Press Note.

Dated 9th August 1950.

There have been, of late, some comments in the Press on the supposed delay on the part of the Government in executing the schemes of rehabilitation of refugees in the State. It is to be pointed out in reply that there has been no avoidable delay in putting these schemes through. The Government are earnestly tackling, at every stage, all questions connected with the relief and rehabilitation of the refugees in the State. Many details of major schemes like these have got to be worked out and a certain amount of time is necessary to finalise these questions in consultation with the Government of India. Two points made in the Press articles are that the 'Housing Scheme' has not been expedited and that there has been no substantial relief under the 'Loans Scheme'. Regarding the former, it has to be said that the work of construction of 200 houses for the refugees has been entrusted to the City Improvement Trust Board. The Chairman of the Board has been given an advance of Rs. 50,000 for the purchase of iron, steel and other necessary materials, and he has also been requested to intimate the amount of further advance required for disposal of bills, etc., if any, on hand. Regarding the 'Loans Scheme,' it has been ascertained from the Revenue Commissioner that there are nearly 300 loan applications and that out of the sum of Rs. 3 lakhs earmarked for this purpose, he has tentatively allotted loans to some refugees. He has also requested that at least a further sum of Rs. 12 lakhs might be provided for meeting the demands of all the refugees.

This question has been taken up with the Government of India. In the meantime, the Revenue Commissioner has been requested to entertain whatever executive staff is necessary for the work and to disburse loans to the extent sanctioned according to the circumstances and needs of each case.

Government fully appreciate the needs of the refugees and give the topmost priority to questions affecting their relief and rehabilitation. So far as educational facilities are concerned, necessary relief has been given to them to the extent possible.

Press Note.

Dated, 11th August 1950.

In the course of a statement to the Press, Mr. L. Sundararaja Iyengar, President of the Central Committee of the K. G. F. Labour Associations, has referred to a discussion he had with the Law Secretary to the Government of Mysore in regard to the implementation of the recommendations of the Minimum Wage Committee. He informs the public that the Law Secretary told him that "in view of the Union Government's taking over the control of the K. G. F. Mines, the labour responsibilities have also been shifted to the Central Government. The Government of India have not yet extended its Minimum Wages Act to the States. Hence, the Mysore Minimum Wages Act was still in force and the Mysore Government could pass orders on the report submitted by the Minimum Wage Committee. But in case the Central Government extended its Minimum Wages Act to Mysore and pursue their own methods, it would be useless if under the circumstances the Mysore Government were to pass orders on the recommendations of the Committee. Hence the Government had to wait and see what action the Centre would take on the issue". The above statement, apart from being a misappreciation of facts, is likely to create a wrong impression on the mind of the public. With a view to remove such impressions, this Press Note is issued:

It was not stated that the Union Government has taken over the control of K. G. F. Mines and hence the labour responsibilities have also been shifted to the Central Government. All that the Law Secretary said was that after the inauguration of the Constitution, *viz.*, on 26th January 1950, the power to legislate on matters connected with the "regulation of labour and safety in mines and oil-fields" vests only in the Parliament of India and not with the State Legislature. Moreover, under the Industrial Disputes Act of 1947 which was introduced to the State of Mysore from 26th May 1950, the settlement of industrial disputes connected with the mining labour will also have to be dealt with by the Department of Labour of the Government of India. In fact, the Regional Commissioner of Labour of the Government of India, at Madras, has assumed charge of the Central Responsibilities in respect of mining labour in the State of Mysore.

The Mysore Minimum Wages Act was passed in February 1949—long before the introduction of the Constitution when Mysore had full powers of legislation over all labour matters including the mining labour; and early in May 1949, a Wage Committee also was constituted to fix the minimum wages for the mining employees in the K. G. F. area. But the recommendations of the Committee were received only in February 1950 by which time the Constitution had come into force. The Government feel that in the altered circumstances the question will have to be more appropriately dealt with by the Union Government. If, on the other hand, the Government of Mysore now fixed up the minimum wages in respect of the mining labour in K. G. F. Area it may lead to a controversy whether such action by the State Government would not amount to an exercise of legislative powers over an item which is under the exclusive jurisdiction of the Parliament. The question is, however, under examination and an early clarification is expected in this behalf.

The public, in general and the labour in the Mining Area in particular, are hereby assured that the State Government and the Central Government alike will not fail in their duty towards labour, as a solution of the question will not be long in coming.
